PREPARATION INSTRUCTION:

Fryer:

Preheat oil to 175°C (350°F). Place the required amount of product into the wire basket and fry for an approximately 3-4 min. Do not bake too large quantities at once. drain well before serving.

Oven:

Pre-heat oven for 15-20 min at high temperatures, place the potatoes on a baking sheet without thawing in a single layer without superimposing them. Bake at 220°C for 10-12 min or until golden.

"Do not refreeze once thawed"
